

AquesGlaze Reducer

50-XVN-5131

AquesGlaze Reducer is a slow evaporating reducer used to extend the open time and workability of the AquesGlaze Color paste.

TECHNICAL DATA:

Type	Mixture of solvents
Code Number	50-XVN-5131
Gloss (60° Glossmeter)	N/A
Flash Point	> 100 °C
Specific Gravity	1.01 ± 0.05
Solids by Weight	N/A
Solids by Volume	N/A
Virgin Viscosity	N/A
Mixing Ratio	Cut 1 to 1 with AquesGlaze Color Paste
Reduced Viscosity	N/A
Method of Application	Wiping, Brushing
Drying Time	N/A
Directions for Use	The AquesGlaze Reducer is to be stirred well before use
Shelf Life	12 months in sealed container

2018-Oct-03 V1

All information in this technical data sheets are based on our present knowledge derived from products test and history. It may vary in different situations. Actual dilution rates and viscosities may vary due to specific customer requirements or application processes. Please contact the Technical Department for more clarifications.
